Imagine you're lost and alone on a desert island. How would you survive? Would you become instantly *despondent* and give up all hope of being rescued, or would you *perceive* a way to show strength and courage and even enjoy the adventure? Perhaps you would try to make the most of the intriguing *site* and make it your home away from home. With a little ingenuity and elbow grease, you could build a hut from a coconut palm tree and *camouflage* it to blend in with your surroundings. Of course, your *principal* goal would be to find a reliable source of water and food. You are likely to find plenty of coconuts that have fallen, which might be *attributable* to the wind from a tropical storm.
